COMMENTS:

All cattle sold well today on a steady market with good buyer representation. The weather has affected the cattle slaughter so far this week as the ice storm has set in across most of the feedlot country from Texas to the MidWest. The impact of the reduced kill is helping boxed beef values, which in turn is helping the futures market make advancements. It sure seems a lot of the volatility in this market has quietened down over the last month as the market is being driven more by fundamentals instead of fear. We would love to market your cattle so please let us know how we can help. We are having some weaned calves coming on January 31st off of different ranches. If you would like to consign some calves to this sale, please give us a call.

*** THE PRICES QUOTED ARE FOR # 1 FEEDER STEERS AND HEIFERS. PRICES ADJUST DOWN ACCORDING TO QUALITY, KIND AND FILL.**
