**COMMENTS:**

*The calf market today was \$5-\$10 higher while packer cows/bulls sold on a steady market. The Boxed Beef Report came out showing stimulated buying interest, especially with out front buying 30-60 days ahead. This should help in cleaning up back-logged supplies and insuring some solid shipments for February. This combined with good exports has helped move additional beef which, in turn, has helped the beef industry all the way down to the cow/calf producers. Next week we have several weaned calves selling in conjunction with our regular sale. The prices are getting stronger and we would love to have you join us next Tuesday. Give us a call if we can help you in any way.*

**\* THE PRICES QUOTED ARE FOR # 1 FEEDER STEERS AND HEIFERS. PRICES ADJUST DOWN ACCORDING TO QUALITY, KIND AND FILL.**
