Comments:

Today's market picked right up where we left off before Thanksgiving with strong demand on quality calves. Pleasantly, the packer market picked up as packer cows / bulls were \$5 stronger as were stocker/feeder heifers. Stocker operators are running into health issues trying to straighten out freshly weaned calves, so any calves weaned 30+ days are selling at a premium.

The market appears to be firming up as we approach the end of the year with only 3 weeks left of cattle sales before the Christmas holidays. Let us know how we can help out with your livestock needs.

***THE PRICES QUOTED ARE FOR #1 FEEDER STEERS AND HEIFERS. PRICES ADJUST DOWN ACCORDING TO QUALITY , KIND AND FILL.**
