Comments:

Fat cattle coming out of the feed yard have suddenly jumped up about \$10/CWT in a matter of just a couple weeks. This, in turn, has helped the cow/calf man as well as stocker operators as the "bullish" tone has worked its way across the whole beef sector. The demand is high and the market was strong today on all types of calves. Next week should be good as well as operators try to stay current on cattle going into the Thanksgiving holiday. Next week is shaping up to look like a good offering of weaned cattle as well as stocker type calves. So far we have about 400 head of weaned cattle lined up to sell Tuesday, November 14th as well as a couple bigger sets of calves coming straight off the cow. There will be plenty of buyers for all types of cattle. If you have cattle you would like to consign or have any questions about the yearlings coming, call Derek at (254) 386-6852. The cattle coming next week will be an excellent offering from reputation ranches. Most of the weaned cattle will weigh between 500# and 700#.
