COMMENTS:

With all the good rain we got this last week, we had a light run today, but a very active market on all classes. This rain helped perk up interest on calves to turn out on wheat. Replacement type heifers weighing from 500#-700# sold on a very strong market this week as well. The packer market was softer again as plants are still backed up with cows. Next week we have 150+ head of calves coming off 4-5 ranches. Most, but not all, of these calves will be weaned and will weigh from 400# - 800#. There will be several good replacement type heifers amongst these calves. We expect another strong market next week with the renewed interest in calves after our recent rains. We would love to market your calves if you have any you would like to add to the offering, or any Tuesday going forward! Stop by any time or give us a call.
