Our market was \$3-\$7 better today on almost all classes of calves. I didn't call a trend because the last two weeks, we've had short runs and it's hard to compare from week to week. Last week I made a remark thought the market had turned a corner and was headed higher. I don't think it will move much higher, but I feel that it will stabilize and we will see some predicatability in the market. Next week we will have about 100 head of calves off one ranch. They are Brangus type and will have some condition. If you have cattle to sell, give us a call!
