We had some really nice calves that sold today on a sharply lower market. After locking down the limit Monday, the futures board today started off lower again, pressured by follow through selling and cash/product uncertainty. If the feedlots can keep from a big sell off this week, this might be a short term down market. We are here to help you with your livestock needs, so let us know how we can be of assistance to you.

*\* The prices quoted are for # 1 feeder steers and heifers. Prices adjust down according to quality, kind and fill.*
