We had a steady market on 255 head. There are many things going on in the world that are affecting the cattle market. The financial problem in Greece, unrest in the Middle East and lower demand for beef in the US. I think we are going to see a lower trend in the calf and yearling market for the next few weeks. If some of the world problems get solved, things could change but our biggest problem is lower demand for beef at home. If you have cattle to sell, give us a call!
