We had a short run today but the market was active and the demand was good. The heat is effecting the number of cattle coming to market and is effecting the price of fat, unweaned steers and heifers. Next week we will have 25 running age pairs with some bigger calves and some with smaller. They have been running with a black bull. Some should be 3 in 1s. Also we will have a small set of 1st calf black pairs that have an excellent set of calves. If you have cattle to sell give us a call.
