

September 15, 2015

We had a short run of cattle today but the market was active and the demand was good. It seems that one day the market is up and the next it is down. There are many things effecting the markets today that the cattle producer has no control over! I've decided I don't know much about the cattle market, but I know we need a rain! It would sure help if we could get the grain crops up and growing.

On September 29th, we are going to have a few groups of cattle to sell. Some have been weaned and some will be straight off the cows. Also, don't forget the Roping Cattle Sale is coming up on October 9th & 10th. If you have cattle to sell, give us a call!
