Packer Bulls:					
High Yield:	77-80	CWT			
Low Yield:	70-76	CWT			

Comments:

Today we had several good calves off several ranches featured that were sold on a mostly steady market. Light calves and heavier yearlings sold while heavier calves carrying fatter condition were a little softer. As the fall weather approaches with threats of cooler nights and warm days, this will increase the chances of sickness in calves being sold that haven't been weaned. With increased sickness comes increased medicine cost and death loss which translates to lower prices on these types of calves. Right now the market seems to be holding steady, but could change at any time in the upcoming weeks. We would love to help market your livestock and hope that you know that we are always here to help!

***THE PRICES QUOTED ARE FOR #1 FEEDER STEERS AND HEIFERS. PRICES ADJUST DOWN ACCORDING TO QUALITY , KIND AND FILL.**
