Packer Bulls:					
High Yield:	74-78	CWT			
Low Yield:	60-73	CWT			

Comments:

The cattle on feed report came out last Friday and reared its ugly head as placements came in 5-6% above projected values. In turn, the futures board was down the limit most of the day on Monday. Feedyards are full and cheaper prices on fat cattle are discouraging feeders from selling to make room for new placements. Yearlings and weaned cattle sold mostly steady today and calves were a little softer. Packer cows & bulls were again \$2-\$3 lower as packing plants are still full and backed up over a week on kill dates. A good rain might help more than anything at this point to slow down runs and get winter grazing up. That should spark demand on stocker calves.

This Friday & Saturday is our Roping Cattle Sale. We are expecting 700 Corriente & Longhorn influenced cows to sell on Friday starting at 11:00 a.m. If you're interested in buying some cows, don't hesitate to call the barn with any questions. Saturday, September 30th, we will sell around 1,000 guaranteed fresh ropers & potentials. Come see what all the buzz is about out here this weekend!

***THE PRICES QUOTED ARE FOR #1 FEEDER STEERS AND HEIFERS. PRICES ADJUST DOWN ACCORDING TO QUALITY , KIND AND FILL.**
