Wow!!! What a sale!! The crew here at Hamilton Commission Company wants to thank all of our buyers and sellers alike for a great Spring Roping Cattle Sale!!

Friday's cow sale started off with a bang as we sold 600+ hd on an extremely active market with excellent demand on all classes of cows and pairs. With any kind of normal spring with rainfall and adequate range conditions going forward, this market looks to hold steady or could very well gain traction going into the summer and fall. Pastures are depleted of normal stocking rates because of the extended drought over the last couple of years and producers are hoping to restock to normal stocking rates going forward.

Saturday's sale featuring the fresh potentials and ropers picked up right where Friday's sale ended and showed even more demand on an extremely active market on #1 calves. A shorter supply of ropers and potentials currently available has driven prices stronger going into traditional roping season as contractors look to stock up on ropers going through the summer. All types of potentials and ropers sold on an extremely stronger market, but stale or put together calves were of course softer than the calves coming from the original producer.

We invite everyone to come back to our next sale on June 2nd and 3rd. Consignments are already coming in so be sure to get your cattle called in early before the books close so we can maintain a strong market for everyone.
